

HIGHER CERTIFICATE IN LOGISTICS MANAGEMENT

SAQA ID 96798 | NQF Level 5

About the Higher Certificate in Logistics Management

The programme is designed to equip students with a wide range of logistics management knowledge as well as the skills and competencies suitable for operational level logistics and supply chain management personnel. At the end of the programme, students will be able to understand the importance of logistics and supply chain operations and its contribution to a productive organisation. The programme is delivered through distance learning, which provides much needed flexibility for the full-time employed individual.

Please note: Students need to have access to a computer with Internet.

"OLG allowed me to do my best and it has been so worth it at the end of the day as I have achieved my Higher Certificate in Logistics Management. Engaging. Inspiring. Empowering. These three characteristics are just a short example of the many you demonstrate with all your students, including me. I cannot thank OLG enough for the past three years. It has been hard at times, especially trying to put in the efforts whilst juggling a career, going through a SAP take-on, as well as a family life ultimately accumulating in me achieving a Cum Laude. Too often we progress through the "ropes of life", and do not invest the time to express our gratitude and authentic value for the support OLG so eagerly shares for our growth, not only as students, but as long term partners. Thank you for being genuine. Thank you for seeing me as a partner in learning and sharing. Thank you for being you. Thank you for being one of the best distance learning academy's out there. May you continue to inspire others to achieve their goals and dreams."

Shelly-Anne Joshua, Higher Certificate in Logistics Management
